ARTEC INDUSTRIES®

Artec Windows

PRODUCT CATALOG

SINCE 2010

Strength in Steel. Beauty in Design.

The homes we build deserve more than ordinary windows.

Artec was built on a commitment to create steel windows that bring together lasting strength and exceptional design.

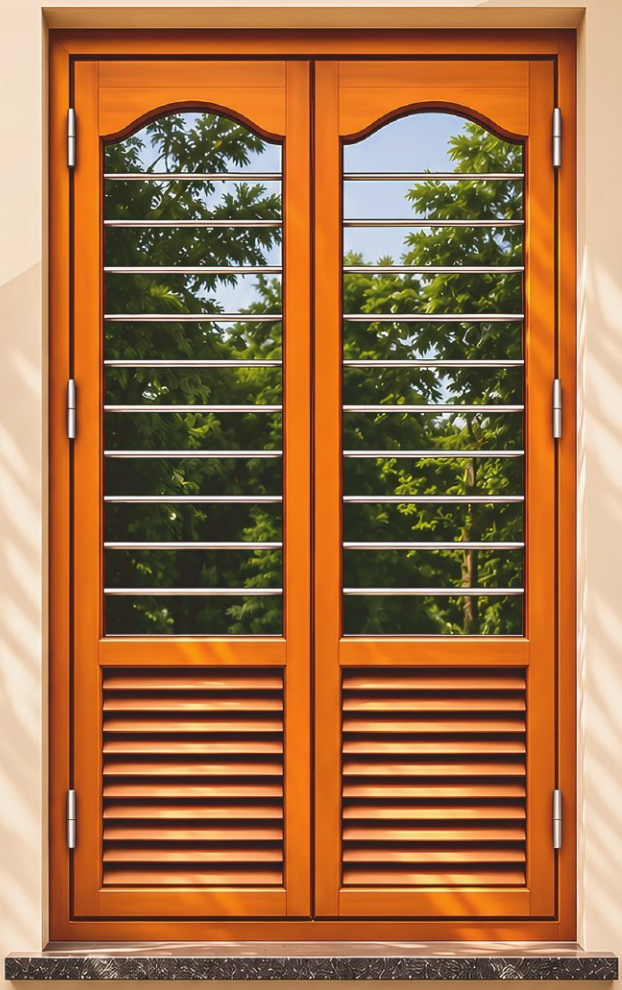

Rooted in Kerala, we aim to make products that understand the homes, architectural preferences and aspirations of the people here.

Endless Design Possibilities.

Windows that adapt to your space, style and vision.

From panel arrangements to finishes and design details, Artec gives you the freedom to create windows that truly reflect your style and vision.

EXPLORE OUR

WINDOW COLLECTION

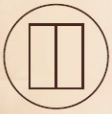

Steel windows that blend modern performance with the warmth and character of wood.

Our Collections

Designed for Every Style of Home

From timeless proportions to contemporary details, every ARTEC window is designed to bring together thoughtful design, lasting strength and everyday comfort.

Top Bottom Single Horizontal Check

Same Split

Top Bottom Split Check

02

WIDE SPLIT

A combination of wide and narrow panels creates a dynamic yet balanced appearance.

A distinctive configuration that brings both character and balance to the space.

2 Panel Wide Split

3 Panel Wide Split

4 Panel Wide Split

03

TOP SPLIT

A graceful upper division breaks the frame with a quiet sense of rhythm and proportion.

A balanced form with a refined architectural presence.

Top Split

Equal Top Split

Upper section is divided equally across each panel

Top Split

Wide Centre Top Split

Wider top section in the centre, with narrower sections on either side.

Individual Top Split

Individual top sections with varying split heights across the panels.

Top Split

Top Split with Centre Panel

Full centre panel with equal top-split panels on either side.

04

BOTTOM SPLIT

A refined lower division shapes the frame with a gentle sense of rhythm and proportion.

A balanced expression with understated architectural elegance.

Bottom Split

Equal Bottom Split

Bottom section is divided equally across each panel

Bottom Split

Wide Centre Bottom Split

Wider bottom section in the centre, with narrower sections on either side.

Bottom Split

Bottom Split with Centre Panel

Full centre panel with equal bottom split panels on either side.

05

FRENCH WINDOW
BOTTOM LOUVER

A graceful lower louver adds a subtle rhythm to the frame, balancing form with function.

A timeless detail that brings quiet character to the French window.

Standard Bottom Louver

French window with equal-sized lower louver sections across all panels.

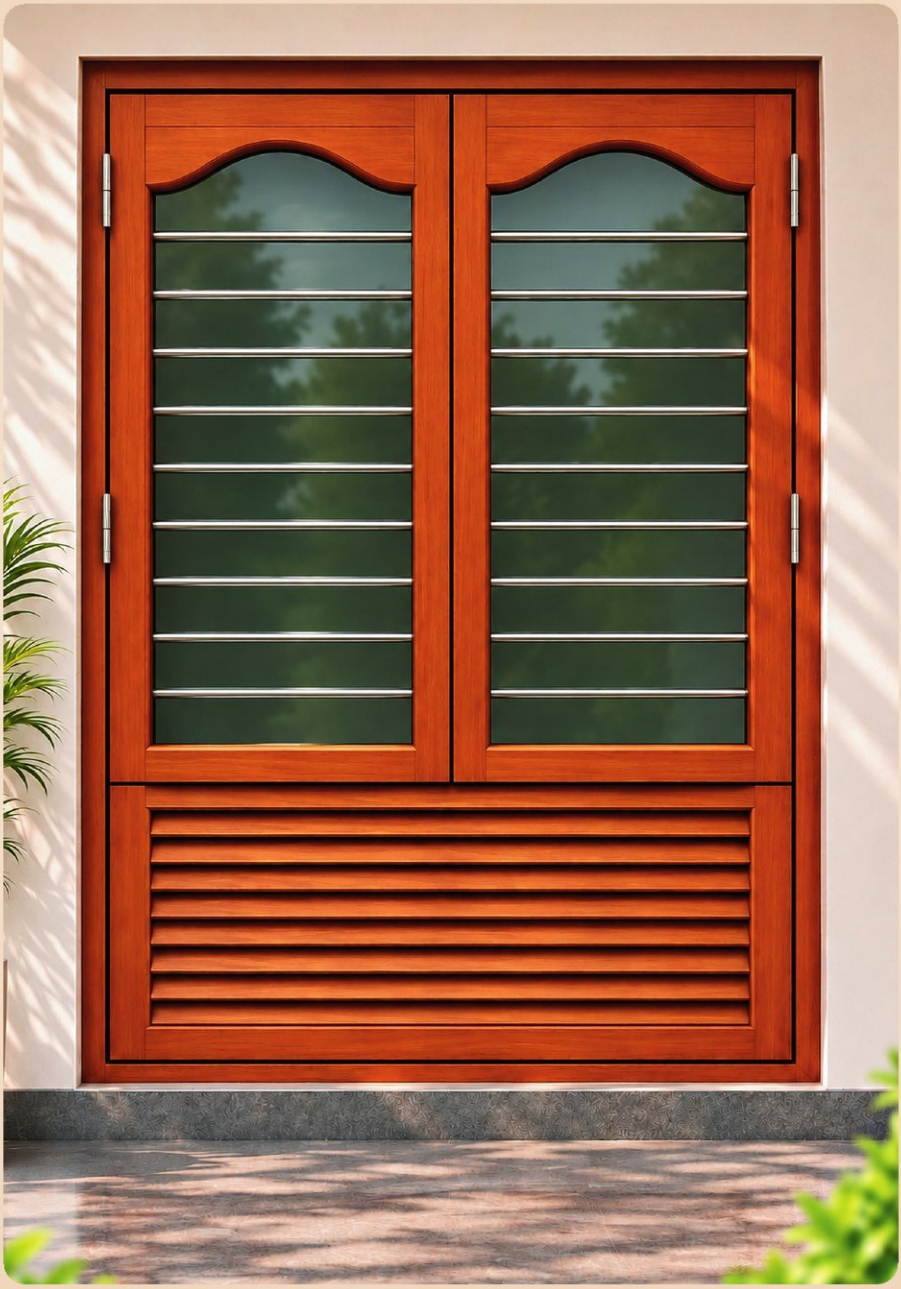

Bottom Louver

Standard Bottom Louver

Lower louvered section featuring an arched upper frame detail on each panel.

Bottom Louver

Wide Centre Bottom Louver

Single, wider fixed louvered section across the lower portion, beneath the operable upper panels.

Bottom Louver

Side Louvers with full centre

Matching lower louvers on both side panels with a full centre panel.

Bottom Louver

Wide Centre Bottom Split

Wider centre panel with a matching bottom split,
framed by equal side louvers.

06

FRENCH WINDOW

BOTTOM LOUVER WITH TOP SPLIT

A refined upper division adds rhythm and proportion to the frame.

A balanced detail that lends the French window a graceful architectural character.

Bottom Louver with Top Split

Combined Top Split

Four equal panels with matching top splits and lower louvered sections.

Bottom Louver with Top Split

Equal Top Split

Top splits are equally across each panel with lower louvered sections.

Bottom Louver with Top Split

Wide Centre Panel

Wider centre panel paired with narrower side panels, with matching top and bottom divisions.

Rosewood

Our Process

Dipped for a Deeper Protection.

Our windows are dip-painted, not just sprayed. This ensures a uniform coating on every surface, even inside the rods for long lasting durability and rust resistance.

The Only Manufacturer in Kerala

using the dip-painting process for windows.

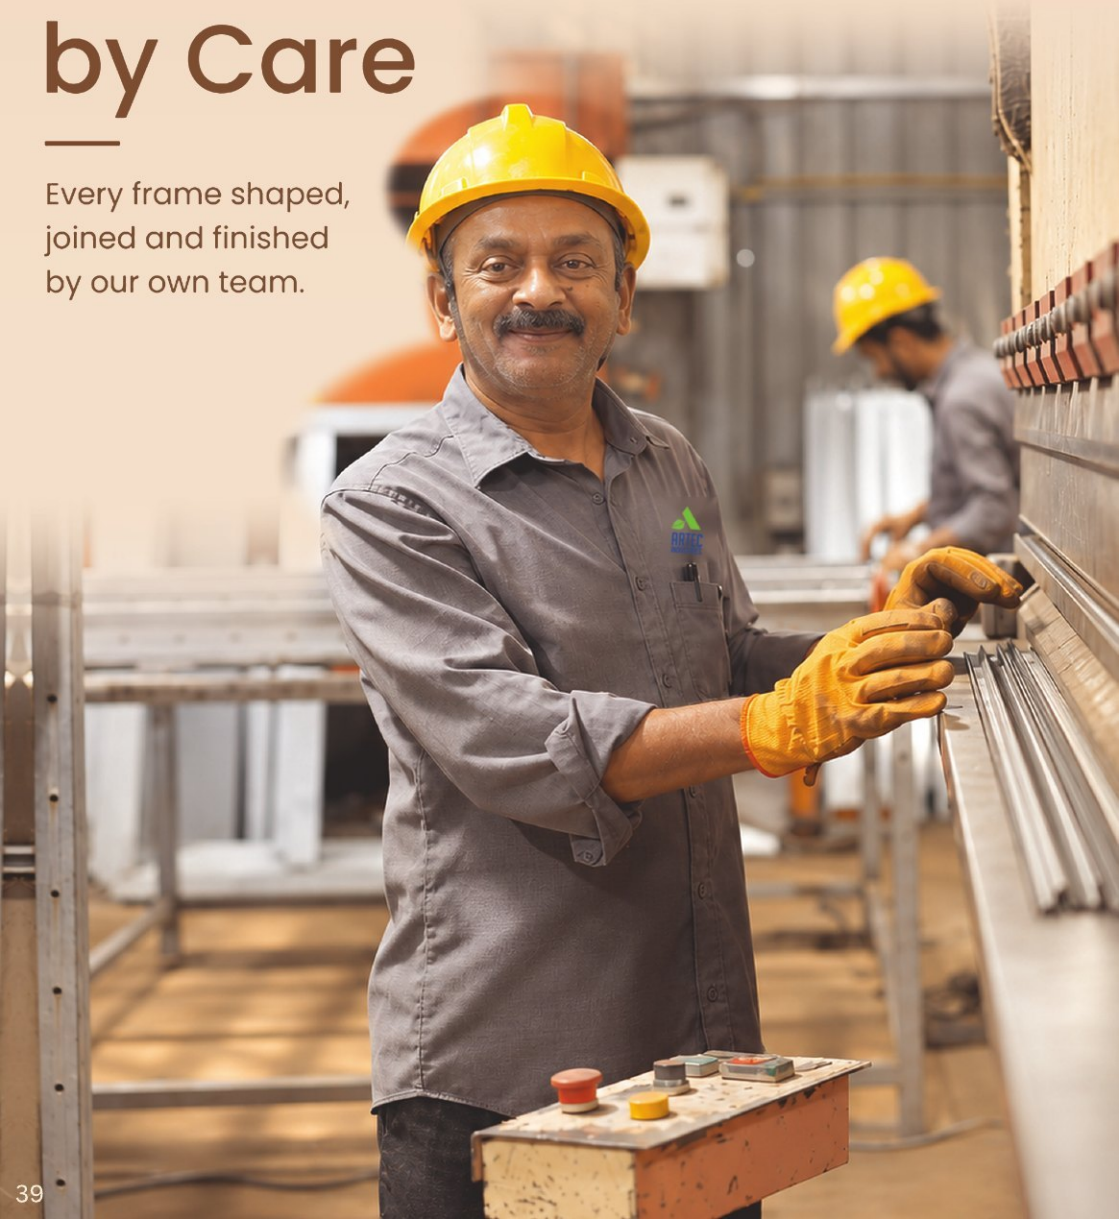

Spray Painting
(Surface only)

Dip Painting
(Complete coverage)

Crafted by Care

Every frame shaped, joined and finished by our own team.
